

GBH American Hospital

GBH American Hospital opened in 2006. It was the vision and determination of Dr. Kirti K. Jain to get quality health care to India which set the blueprint to build Udaipur's first multi-specialty private sector hospital. Therefore, under the inspiring leadership of Dr. Jain, GBH AH has been recognized as a top hospital in Udaipur, delivering outstanding and extraordinary patient care. At GBH AH, you will find a team of expert physicians, nurses, and staff working together to provide you with advanced medicine in a personalized and caring environment. We believe that continuous quality of care and performance improvement are the foundation for preserving and enhancing health care delivery. For the comfort of the patients, the hospital features private patient rooms, sleeping area for loved ones and state-of-art surgery suites and the largest and most modern emergency and trauma center in Udaipur. GBH American Hospital is the only NABH Accredited hospital outside the capital of Rajasthan and is ISO 9001:2008 certified which

gives it an edge in patient care and nursing excellence.

GBH unique features include:

- Advanced emergency care
- First well equipped advanced Interventional Neurology Center
- Family-centered care, comfortable spaces, education, refreshments and other amenities to welcome families and guests into the healing process
- Private patient rooms
